Joint Publication of the Association of International Pharmaceutical Manufacturers in Russia and Remedium Group

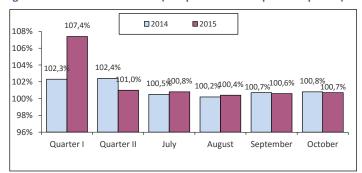

## **MACROECONOMIC INDICES**

#### Inflation

According to Federal State Statistics Service's data, in October 2015, the Consumer Price Index was estimated at 100.7% compared to the previous month, and 111.2% since the beginning of the year.

In September this year, Industrial Producer Price Index (for goods intended for sale on the domestic market) was 101.8%, whereas in the monthearlier period it had amounted to 98.9%.

Figure 1. Consumer Price Index (compared with the previous period)

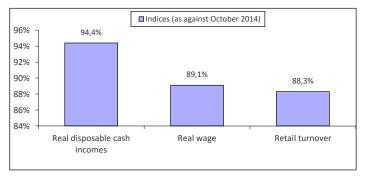

#### Living standard

According to preliminary Federal State Statistics Service's data, in October 2015 a gross monthly average salary per worker reached RUB 33,240 (USD 527.03) which accounted for 101% compared to the previous month and 103% compared to October 2014. The real wage in October 2015 accounted for 89.1% as compared with the same period in 2014. In October 2015, the real value of disposable cash incomes accounted for 94.4% as compared with the same period of the previous year (Fig. 2).

## **Retail turnover**

In October 2015, the retail turnover was equal to RUB 2,378.3 bil., which in comparable prices accounted for 88.3% compared to the same period a year ago, in January-October 2015 - RUB 22,351.6 bil. and 91.2% (Fig. 2).

Figure 2. Real values of cash incomes, wages and retail turnover in October 2015

## **Industrial Production**

According to Federal State Statistics Service's data, in October 2015 Industrial Production Index accounted for 96.4% compared to the same period of the previous year, and in January - October of 2015 - 96.7%).

According to Federal State Statistics Service's data, Industrial Production Index in October 2015 accounted for 107.5% compared to the relevant period of the previous year, and 104.6% to the previous month.

# **Domestic production**

The top 10 domestic pharmaceutical manufacturers according to their volumes of sales in all segments of the market based on the results for October 2015 are shown in Table 1.

Table 1. Top ten Russian chemical and pharmaceutical manufacturers by sales in October 2015

| Rank | Manufacturer   | RUB mil. |

Table 2 provides pharmacy sales data for 10 regions of the Russian Federation. In September 2015 compared to August, growth in pharmacy sales (in terms of roubles) was observed in almost all analysed regions. The highest growth was observed in Perm (+84%), the lowest one in Rostov Region (+15%). Only Krasnodar Krai (-8%) showed the negative growth rates.

# RUSSIAN PHARMACY OTC DRUG MARKET: 2015 FIRST 9 MONTHS RESULTS

According to the results of the Retail Audit of Over-the-Counter Drugs (OTC) in Russian Federation™, at the end of the first nine months of 2015 the sales of OTC drugs in natural terms in pharmacies of Russia saw a 7% decrease to 2.873 bil. packs. In money terms, the market saw a 11% increase in terms of roubles, whereas it showed a negative decline (-34%) in terms of dollars. The market reached RUB 386.203 bil. (USD 6.536 bil.) in wholesale prices (Fig.1). The average cost of an OTC pack reduced as compared to a year earlier period (USD 4.12) and reached USD 2.92 at retail prices. At the end of the first nine months of 2015, the average amount spent by residents of Russia for OTC drugs in pharmacies amounted to USD 57.31.

Figure 1. Russian pharmacy market for 9 months of 2014 – 9 months of 2015

Summarizing the results for the first nine months of 2015, the drug manufacturers NYCOMED PHARMA (+11%1) and BERLIN-CHEMIE/MENARINI (+7%) remained the leaders of the Russian pharmacy market (Table 1). ABBOTT (+6%) moved up to rank three from four, displacing the Russia-based OTCPHARM (+6%) down one rank. The more dynamic manufacturers GEDE-ON RICHTER (+14%) and BAYER (+16%) moved up two ranks, coming in at numbers five and nine. Note that the latter became the only newcomer of the top-10. At the same time, the manufacturers AVENTIS (-3%), GSK (-2%) and ASTELLAS PHARMA (+13%) moved down one rank, to numbers six, 7 and 10, respectively. The drug manufacturer LEK (+1%) held its earlier rank eight. The total share of the top 10 drug manufacturers reduced almost 1 p.p. to 23.9%.

<sup>\*</sup>AIPM members are in bold

The dominant three brand names held their own in the top ten brand name ranking (table 2). The above top three brands included ESSENTIALE N (-13%), a stimulant of tissue regeneration ACTOVEGIN (+4%) and antiviral product KAGOCEL (+21%). The brand name ALFLUTOP (+2%) also held its previous rank five. Four from the remaining brand names of the top ten rose in the ranks. The most dynamic brand name among the top ten leaders CARDIO-MAGNYL (+26%) moved up to rank four from ten, and CONCOR (+4%) moved up to rank six from seven. The newcomers MEXIDOL (+11%) and DETRALEX (+8%) broke into the ranks of the top ten, moving up to ranks seven and ten. At the same time, EXODERIL (-8%) and LINEX (-12%) reduced their sales, moving down to ranks eight and ten, respectively. The total share of the top 10 brand names reduced from 6.9% to 6.4%.

One newcomer broke into the ranks of the top ten INNs and group names ranking. The composition DIOSMIN\*HESPERIDIN (+23%) moved up from rank 15 to nine (Table 3). Another two INNs from the top ten managed to rise in the ranks. INNs BISOPROLOL (+10%) and IBUPROFEN (+19%) moved up one rank, to numbers two and six, respectively. At the same time, they displaced PHOSPHOLIPIDS (-12%), BLOOD (+5%) and DICLOFENAC (+16%) down one rank, to numbers three, seven and ten, respectively. INN XYLOMETAZOLINE (+15%) held and strengthened its leadership. The other three INNs also kept their positions unchanged: PANCREATIN (+12%), NIMESULIDE (+14%) and KAGOCEL (+21%) as before held their previous ranks four, five and eight. The cumulative share of the top 10 didn't change and accounted for 9.6%.

R05 Cough and cold preparations (+5%), C09 Agents acting on the renninangiotensin system (+14%) and R01 Nasal preparations (+11%) remained the best selling groups on the Russian pharmacy market (Table 4). Having outperformed their sales peers, the groups G03 Sex hormones (+14%), G04 Urologicals (+13%), L03Immunostimulants and N02 Analgesics (+14% each), and M01 Anti-inflammatory and antirheumatic products (+9%) rose in the ranks, moving up to ranks four and six and coming in at the three bottom ranks. On top of that, the latter became the only newcomer of the top 10 ranking. Due to lagging behind the growth rates, the groups J01 Antibacterials for systemic use (+11%) and A07 Antidiarrheals, intestinal anti-inflammatory/ antiinfective agents (+8%), in contrast, moved down to ranks five and seven. In total, following the results for 9 months of 2015 the top ten ATC groups accumulated 35.6% of the Russian market, as in the year-earlier period.

Conclusion. On the basis of the results for the first nine months of 2015, the retail pharmacy market of Russia reached RUB 495.214 bil. (USD 8.382 bil.). It was 10% more in terms of roubles and 34% less in terms of dollars than during the same period in 2014. In natural terms, the market showed the negative growth rates (-7%) and equal to 2.873 bil. packs. Based on the results for nine months of 2015, the average cost of an FPP pack in the national pharmacies was USD 2.92, whereas in the same period of 2014 it was USD 4.12. The average expenses of Russian residents for the purchase of OTC drugs in pharmacies also reduced (USD 57.31 vs. USD 88.42).

# RUSSIAN FEDERATION HOSPITAL MARKET: 2015 FIRST 9 MONTHS RE-

According to the results of the Retail Audit of Hospital Purchases in Russia™, in the first nine months of 2015 the Russian hospital market in natural terms reduced by 1% to 475.435 mil. packs. In money terms, the market showed positive growth rates in terms of roubles (+6%) and negative growth rates (-36%) in terms of dollars, and reached RUB 105.252 bil. (USD 1.789 bil.) in wholesale prices. Based on the results for nine months of 2015, the average cost of an FPP pack in the hospital sector was USD 3.76, whereas in the yearearlier period its cost was USD 5.81.

Figure 1. Russian hospital market for 9 months of 2014 - 9 months of

Summarizing the results for nine months of 2015, the drug manufacturer ABBVIE (+14%) became the leader of the top ten manufacturers, moving up one rank due to high growth rates (Table 1). In contrast, ROCHE that had previously topped the ranking reduced its purchases by 2% and moved down to rank two. The other five manufacturers of the top ten ranking showed the negative growth rates. At the same time, the drug manufacturers JANSSEN CILAG (-12%) and AVENTIS (-10%) moved up one rank, coming in at numbers three and four. Due to 36% reduction in purchases, the drug manufacturer GLAXOSMITH that had previously held rank three moved down to rank five. MERCK SHARP DOHME (-10%) moved down two ranks, coming in at number eight, while ASTRAZENECA (-1%) held its previous rank seven. NOVARTIS PHARMA (+0.1%) and BAYER (+4%) that lost one rank each moved down to the two bottom ranks of the top ten. The Russian manufacturer PHAR-MASYNTEZ IRKUTSK showed almost 5-fold growth in purchases and moved up from rank 49 to six, becoming the only newcomer of the top ten. The total share accumulated by the top ten drug manufacturers reduced from 28.3% to 26.7%

<sup>\*</sup>AIPM members are in bold

One newcomer broke into the ranks of the top ten brand names ranking: antibiotic drug MEROPENEM (+43%) gained rank seven, moving up from rank 15 2). Note that almost all brand names from the top ten developed at a fast pace. At the same time, HERCEPTIN (+27%), REYATAZ (+28), ISENTRESS (+23%), CUROSURF (+9%) and ULTRAVIST (+12%) rose in the ranks, coming in at numbers two through four, six and eight. The brand names NATRIUM CHLORIDUM (+20%) and CEFTRIAXONE (+11%) held their own in the top ten, moreover the former reinforced its leadership. Due to reduction in sales, PREZISTA (-31%) and CLEXAN (-22%) moved down to ranks five and ten, respectively. The cumulative share of the top ten brand names increased by almost 0.4 p.p. and achieved 12.5%.

Following the respective brand name, INN SODIUM (+18%) held and reinforced its leading position in the top ten INN and group names (Table 3). Despite the negative growth rates, CEFTRIAXONE (-1%) and DARUNAVIR (-4%) retained their previous ranks two and three. Another two INNs reduced their purchases. INNs ENOXAPARIN SODIUM (-2%) and IMMUNOGLOBULIN BASE (-7%) moved down to ranks six and nine, respectively. Four INNs from the top ten ranking rose in the ranks TRASTUZUMAB (+27%) and ATAZANAVIR (+28%) moved up to ranks four and five, and the newcomers DOCETAXEL (+30%) and RALTEGRAVIR (+23%) broke into the ranks of the top ten, coming in at numbers eight and ten, respectively. The brand name MEROPENEM (+12%) held its previous rank seven. The total share of the top 10 INNs increased by almost 0.7 p.p. and accounted for 14.7%.

The leaders of the top ten ATC groups also held their own on the hospital market of the country. J05 Antivirals for systemic use (+5%) and J01 Antibacterials for systemic use (+4%) retained their previous top two ranks, despite lagging behind the growth rates (Table 4). Another two groups: J07 Vaccines T01 (+10% each) held their previous ranks five and six. Five ATC groups from the top ten moved up one rank. K01 Intravenous solutions (+9%) moved up to rank three from four, displacing B01 Antithrombotic agents (+4%) down one rank. The groups N01 Anesthetics (+16%), J04 Antimycobacterials (+7%), N05 Psycholeptics (+8%) and J06 Immune sera and immunoglobulins (-6%) moved up to ranks seven through ten respectively. On top of that, the latter broke into the ranks of the top 10 ranking for the first time. The cumulative share of the top 10 didn't virtually change and accounted for 51.6%.

Conclusion. At the end of the first nine months of 2015, the Russian hospital market increased in rouble terms by 6%, but reduced considerably in dollar terms (-36%) and brought in RUB 105.252 bil. (USD 1.789 mil.). In natural terms, the market reduced by 1% to 475.435 mil. packs. At the end of the first nine months of 2015, the average cost of a finished pharma product (FPP) pack in the Russian hospital sector was USD 3.76 vs. USD 5.81 in the year earlier period.
